ECON 1078 or MATH 1071

2 Essential Mathematics

i

RIf you use a version other than the 3rd edition, pay careful attention to homework problems. Check with me, or another student that you are doing the correct problems as assignments and numbers vary by edition.

This class is the second of a two course sequence. It is a continuation of ECON 1078 which builds upon the basic foundation developed in that course. Whereas 1078 is considered a “pre-calculus” course, 1088 is much like Calculus 1 in the engineering or math departments. As such, many of you will find the material more difficult to master than 1078. Additionally, the schedule during the summer course makes mastery of the material more difficult, in my humble opinion. As such, I expect you to att

Attendance is extremely important. Mathematical concepts build on prior knowledge and it is very important not to get behind. I will use your in-class worksheets as a way to monitor attendance. I reserve the right to use a different attendance policy if I feel attendance is too low.

If you qualify for accommodations because of a disability, please submit to your professor a letter from Disability Services in a timely manner (for exam accommodations provide your letter at least one week prior to the exam) so that your needs can be addressed. Disability Services determines accommodations based on documented disabilities. Contact Disability Services at 303-492-8671 or by e-mail at dsinfo@colorado.edu.

If you have a temporary medical condition or injury, see Temporary Injuries under Quick Links a

misconduct shall be reported to the Honor Code Council (honor@colorado.edu 303-735-2273). Students who are found to be in violation of the academic integrity policy will be subject to both academic sanctions from the faculty member and non-academic sanctions (including but not limited to university probation, suspension, or expulsion). Other information on the Honor Code can be found at <http://www.colorado.edu/policies/honor.html> and at <http://honorcode.colorado.edu>

If I catch you cheating, I will not hesitate to report the incident to the Honor Code Council. I reserve the right to fail your assignment, exam or the entire course.
Please, do not cheat!
