## Course Info

*Description* Principles of Microeconomics is an introductory undergraduate course that teaches the fundamentals of microeconomics. This course introduces microeconomic concepts and analysis, such as supply and demand analysis, theories of the firm and consumer behavior, competition and monopoly, and welfare economics. Students will also be introduced to the use of microeconomic applications to address problems in current economic policy throughout the semester.

*Prerequisites* There are no prerequisites for this course. Understanding how to read graphs and solve algebraic equations will be necessary on many homework assignments and exams.

## Textbook

We will use **N. Gregory Mankiw, Principles of Microeconomics, 8th Edition** with Mindtap. Please

Midterm 2: Wednesday, October 30 11:00-11:50 AM
