

University of Colorado - Department of Economics
Econ 8828 - Seminar Econometrics - Fall 2022
Professor Carlos Brunet Martins-Filho

Office. Economics Building 105

Meetings. Tuesdays and Thursdays 12:45 PM - 2:00 PM in ECON 5.

Office hours. Office hours will be held Tuesdays and Thursdays from 3:00 PM - 4:00 PM. If you need an appointment outside these hours send an email to carlos.martins@colorado.edu and I will try to accommodate your request.

Class URL. <http://spot.colorado.edu/~martinsc/8828.html>.

Prerequisites. Successful completion of ECON 7818 and Econ 7828 or consent of instructor.

Objectives. This is one of the Ph.D. level courses in Econometrics. The course objectives are:

provide an introduction to some non-parametric models for densities, distributions, regressions and associated estimators and inference procedures,

program and implement the various estimators and test procedures discussed in class.

Grades. Your course grade depends on your performance on a midterm, a research project and a final examination. The research project is a 10 to 15 page long research proposal. It should include an introduction that convinces the reader of the relevance of the proposed research/contribution, a careful review of the relevant literature, and a preliminary guide to the results you hope to obtain and the methodology to be used. Relevant dates and points are given below.

Evaluation	Points	Date
Research proposal	30	December 6
Midterm examination	30	October 18
Final examination	40	December 10, 4:00 PM - 6:30 PM

Support material and reference books.

A set of class notes are available for this course. They will be available as PDFs on the class website. Study them carefully. In addition, the following books have very good presentations of some of the material we will cover.

1. Bosq, D., 1998, Nonparametric Statistics for Stochastic Processes, Springer-Verlag, New York.
2. Fan, J. and I. Gijbels, 1996, Local Polynomial Modeling and its Applications, Chapman and Hall, London.
3. Fan, J. and Q. Yao, 2003, Nonlinear Time Series, Springer Verlag, New York.
4. Li, Q. and J. S. Racine, 2007, Nonparametric Econometrics: Theory and Practice, Princeton University Press, Princeton.
5. Pagan, A. and A. Ullah, 1999, Nonparametric Econometrics, Cambridge University Press, Cambridge.
6. Tsybakov, A., 2009, Introduction to Nonparametric Estimation, Springer, New York.

7. van der Vaart, A., 1998, Asymptotic Statistics, Cambridge University Press, Cambridge.

Topics.

1. Estimation of univariate densities on \mathbb{R}
 - (a) Rosenblatt's estimator and its properties for IID processes
 - (b) Bandwidth choice
2. Multivariate density estimation over \mathbb{R}^D
 - (a) Rosenblatt's estimator and its properties for IID processes
 - (b) Bandwidth choice
3. Estimation of univariate densities over $[0; 1)$
 - (a) Hestenes' estimator and its properties for IID processes
 - (b) Bandwidth choice
4. Estimation of univariate distributions
 - (a) The classical kernel estimator and its properties for IID processes
 - (b) Bandwidth choice
 - (c) The case of discontinuous distributions and estimation of their jumps
5. Nonparametric regression
 - (a) Nadaraya-Watson, local-polynomial estimators and their properties for IID processes
6. Additive regression models
 - (a) An introduction and a discussion of identification
 - (b) Back fitting and marginal integration estimation
 - (c) An introduction to splines
 - (d) The spline-back fitted kernel estimator
7. Selected topics in nonparametric regression
 - (a) Partially linear regression models and Robinson's estimator
 - (b) Nonparametric regression estimation with parametric covariance
 - (c) Nonparametric regression with endogenous regressors

Important information.

Classroom behavior

Both students and faculty are responsible for maintaining an appropriate learning environment in all instructional settings, whether in person, remote or online. Those who fail to adhere to such behavioral standards may be subject to discipline. Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with race, color, national origin, sex, pregnancy, age, disability, creed, religion, sexual orientation, gender identity, gender expression, veteran status, political affiliation or political philosophy. For more information, see the policies at www.colorado.edu/policies/classbehavior.html and at www.colorado.edu/studentaffairs/judicialaffairs/code.html#student_code.

Requirements for COVID-19

As a matter of public health and safety, all members of the CU Boulder community and all visitors to campus must follow university, department and building requirements and all public health orders in place to reduce the risk of spreading infectious disease. CU Boulder currently requires COVID-19 vaccination and boosters for all faculty, staff and students. Students, faculty and staff must upload proof of vaccination and boosters or file for an exemption based on medical, ethical or moral grounds through the MyCUHealth portal.

The CU Boulder campus is currently mask-optional. However, if public health conditions change and masks are again required in classrooms, students who fail to adhere to masking requirements will be asked to leave class, and students who do not leave class when asked or who refuse to comply with these requirements will be referred to Student Conduct and Conflict Resolution. For more information, see the policy on classroom behavior and the Student Code of Conduct. If you require accommodation because a disability prevents you from fulfilling these safety measures, please follow the steps in the "Accommodation for disabilities" statement on this syllabus.

If you feel ill and think you might have COVID-19, if you have tested positive for COVID-19, or if you are unvaccinated or partially vaccinated and have been in close contact with someone who has COVID-19, you should stay home and follow the further guidance of the Public Health Office (contacttracing@colorado.edu). If you are fully vaccinated and have been in close contact with someone who has COVID-19, you do not need to stay home; rather, you should self-monitor for symptoms and follow the further guidance of the Public Health Office (contacttracing@colorado.edu).

Accommodation for disabilities

By signing this syllabus, you agree to the following terms for access to the course materials: <https://www.colorado.edu/academicaffairs/academicintegrity>

Honor code

All students enrolled in a University of Colorado Boulder course are responsible for knowing and adhering to the Honor Code academic integrity policy. Violations of the Honor Code may include, but are not limited to: plagiarism, cheating, fabrication, lying, bribery, threat, unauthorized access to academic materials, clicker fraud, submitting the same or similar work in more than one course without permission from all course instructors involved, and aiding academic dishonesty. All incidents of academic misconduct will be reported to the Honor Code (honor@colorado.edu; 303-492-5550). Students found responsible for violating the academic integrity policy will be subject to nonacademic sanctions from the Honor Code as well as academic sanctions from the faculty member. Additional information regarding the Honor Code academic integrity policy can be found on the Honor Code website.

Sexual misconduct, discrimination, harassment and/or related retaliation

CU Boulder is committed to fostering an inclusive and welcoming learning, working, and living environment. The university will not tolerate acts of sexual misconduct (harassment, exploitation, and assault), intimate partner violence (dating or domestic violence), stalking, or protected-class discrimination or harassment by or against members of our community. Individuals who believe they have been subject to misconduct or retaliatory actions for reporting a concern should contact the Office of Institutional Equity and Compliance (OIEC) at 303-492-2127 or email cureport@colorado.edu. Information about university policies, reporting options, and the support resources can be found on the OIEC website. Please know that faculty and graduate instructors have a responsibility to inform OIEC when they are made aware of incidents of sexual misconduct, dating and domestic violence, stalking, discrimination, harassment and/or related retaliation, to ensure that individuals impacted receive information about their rights, support resources, and reporting options. To learn more about reporting and support options for a variety of concerns, visit Don't Ignore It.

Religious holidays

Campus policy regarding religious observances requires that faculty make every effort to deal reasonably and fairly with all students who, because of religious obligations, have conflicts with scheduled exams, assignments or required attendance. See the campus policy regarding religious observances for full details. www.colorado.edu/policies/fac_relig.html.
