SOME TIPS FROM DR. B

Recognize that most students find economics to be challenging and time consuming.

Ask "specific" questions by e-mail and in class discussion. The more specifics you provide, the faster I can get back to you with the answer.

Make sure you pencil in due dates or sync Canvas to your main calendar for reminders.

Break smaller chunks of time spread over the week to complete any work due.

Use tools that work for you, such as apps, websites, or software, to help you organize your work, study, and personal life. Some examples are Google Calendar, Outlook Calendar, Fantastical, Calendly, RescueTime, etc.

Check in with yourself regularly about how you're spending your time. How much time are you dedicating to reading and assignments? Are you underestimating the time it takes to get things done? Are you cramming the night before for exams and other assignments? Use this self-reflection to adjust your routine.

Communicate with your instructor and family if you need help or have any issues. Be honest and
