Class attendance:

This class is a condensed five week math course, and I feel that class attendance is very important. Thus, students who attend every class will be offered 3% extra credit at the end of semester (this is the only extra credit opportunity for this course!!!). Also, students who miss 5 classes or more will receive a failing grade.

Grading:

Grades will be determined on the basis of your performance on 10 quizzes, 2 midterms, and a cumulative final exam. Quizzes will be administered twice a week, in class time (see schedule below). The quiz grade is worth 20% of your over all grade.

The midterms will be administered on June 13th and June 25th in class. Each test is worth 25% of the course grade. The midterms are not cumulative and will cover only the material since the previous test.

The final exam is scheduled for **July 6th**. The final exam is worth 30% of your grade and will consist of two parts. A “midterm” sized section will cover all of the material after midterm #3 and be worth 15% of your grade in the course. The rest of the final will cover material from the entire course.
