Short-term disability changes

Classified Staff – July 1, 2020

- During the 30-day waiting period before short-term disability benefits begin, employees are required to use accrued leave, including the use of accrued annual (vacation) leave once accrued sick leave has been exhausted.
- Employees no longer need to exhaust their sick leave to begin receiving the short-term disability benefit.
- When an employee is receiving disability payments, they may choose to augment the short-term disability benefit payment with accrued sick leave first, then annual (vacation) leave to make themselves whole, earning 100% of pre-disability earnings.
