

Departmental Action Teams

DAT

A DAT is a group of faculty members from a department who meet regularly to discuss and plan for the future of the department. The DAT is responsible for the development and implementation of the department's strategic plan.

The DAT is responsible for the development and implementation of the department's strategic plan. This includes the development of the department's vision, mission, and values, as well as the development of the department's strategic plan. The DAT also monitors the progress of the department's strategic plan and makes adjustments as needed.

Core Principles

Our core principles are:

1. Student success
2. Work-life balance
- 3.

For the past several years, we have been working to improve the quality of our programs and services. We have implemented a number of changes, including the development of new programs and services, the improvement of existing programs and services, and the implementation of new policies and procedures. We are committed to continuing to improve the quality of our programs and services and to providing a high-quality educational experience for our students.

Using research-based change strategies

Our approach involves adapting organizational change literature that was primarily developed in business settings to higher education. Additionally, we conduct ongoing research on the DAT model to iteratively design and test its effectiveness. Products from this research can be used to guide educational reform at other institutions.
